

DFB Multi-Effect Composite Filter Box

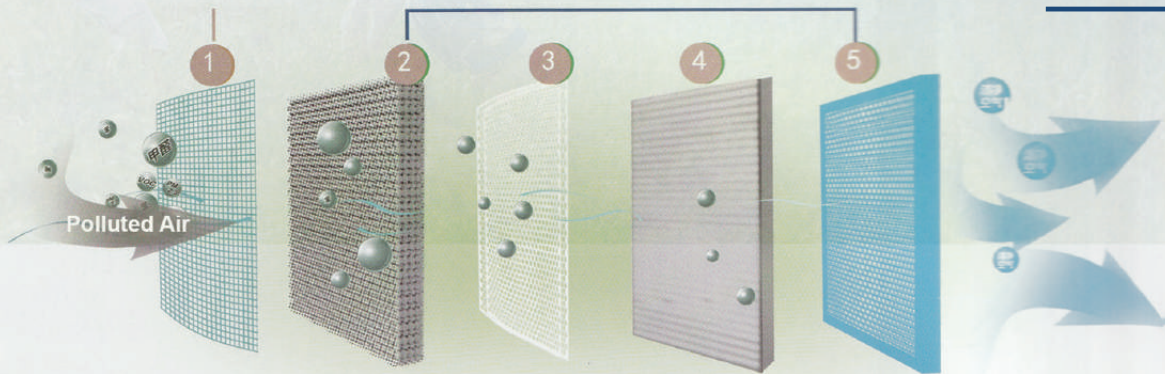

PM2.5 One-time filtration efficiency up to **99.7%**

Primary Filter

Multi-effect Composite Filter

FEATURES

1 Primary Filter

It is European CENEN standard G4 grade with filtration efficiency of up to 90% for particles with $\phi \geq 5.0\mu\text{m}$, such as dust and pollen.

2 Activated Carbon

It absorbs odors such as unpleasant ammonia smells, ethyl mercaptan, cigarette smoke and some harmful gasses such as formaldehyde in the air.

3 Nano Silver Ions

It kills most harmful bacteria in the air with its super antibacterial ability and long lasting effectiveness.

4 HEPA

Its unique humidity and mildew resistant material generates static electricity when it rubs against passing airflow, effectively filtering out PM2.5 particles.

5 Cold Catalyst

It removes formaldehyde efficiently through chemical decomposition; as a catalyst, it will not be consumed, making it long-lasting.
