

# Safe, Easy & Flexible Air Purification

*Plasma BAR Series Needlepoint Ion Generator*

## IDEAL FOR:

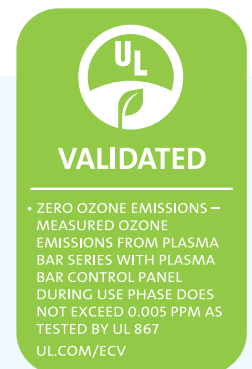

Schools  
Office Buildings  
Gyms & Fitness Centers  
New Construction  
Religious Institutions  
Restaurants & Retail

## EASY INSTALLATION

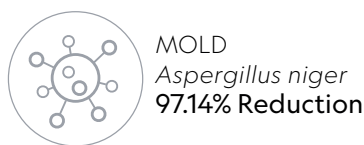

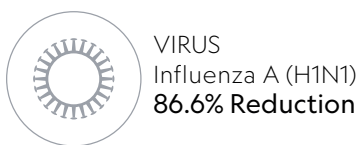

- Flexible and fast installation for both air handling units or rooftop units
- Can accommodate any application size by installing multiple BARs that range from 18" to 96"
- Integral feedback circuit eliminates the need for separate duct ion sensor
- Suitable for 120-240V with power supply

## EFFICIENT & EFFECTIVE

- Can save money and energy by reducing the outside air requirements
- No replacement parts for life of unit
- Low power consumption; 1.5 watts
- Low maintenance - recessed needles reduce dust build-up
- Proven safe and effective for continuous use

Bipolar ionization technology works around the clock to reduce indoor pathogens and pollutants such as viruses, bacteria, mold, and allergens.
