

Solar Pest Repeller

▼ Specification:

- Material: ABS Plastic, solar panel
- Power: solar panel+ 1x AA size NI-MH rechargeable battery 220V AC/12V DC adapter
- Pest type: rat, cockroach, flies, bug, mosquito etc.
- Three Frequency:
 1. Frequency A: 7kHz against mosquitoes and fleas
 2. Frequency B: 10kHz against flies, mice and rats
 3. Frequency C: 12kHz against cockroaches and martens.

▼ Theory:

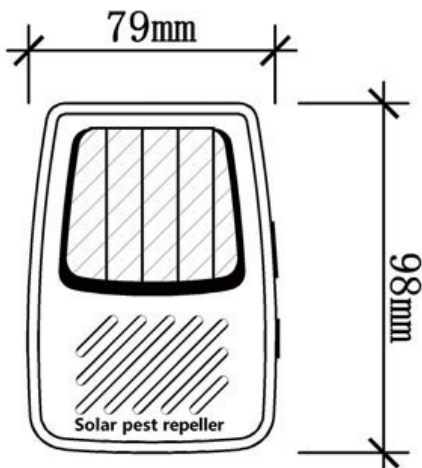

1. Solar pest repeller is effective in controlling mice, rats, and most other common pests.
2. Laboratory research has shown that ultrasonic waves attack the auditory and nervous system of common pests, and then cause them pain and discomfort.

▼ Application:

Repeller is used for apartments, food service, businesses, farms and so on. Covers up to 60sqm

▼ Advantage

1. Powered by solar energy
2. Three modes to repel different pest
3. Can be recharged in the car

▼ Packing details:

- Packing: Blister Card or box
- Unit item size: 9.5x8x3.5cm
- Unit blister card size: 20x14.5x6cm
